

As the Regional Metrology Organisation of Europe, EURAMET brings together metrology laboratories of 37 member countries and world leading metrology capabilities supporting European innovation, industrial competitiveness, trade, and regulation.

Our vision is to be the leader in the development and application of measurement enabling Europe to be competitive, healthy and sustainable through innovation

Mission:

- Develop and disseminate an appropriate, integrated and cost effective measurement infrastructure for Europe taking into account the needs of end users in industry, business and Government
- Ensure that the European measurement infrastructure is internationally competitive and recognised, and is based on robust and high quality science and R&D.
- Support members in meeting their own national requirements through collaboration and a balanced European measurement infrastructure

To deliver the mission strategic priorities for EURAMET are:

Stakeholder Engagement

EURAMET will strengthen its links and influence with key users and stakeholders to prioritise its work and increase uptake and impact.

Policy Support

Increase influence with European Policy Makers and National Governments by providing inputs to policy development and raising awareness of the contribution metrology makes to business and society.

R&D Collaboration

Further develop collaborative R&D in metrology to enable Europe to achieve its strategic goals.

Support to Members & Associates

Provide added value to all members and associates through collaboration and mutual support to help meet their national objectives

Enhance Quality Infrastructure

Help improve efficiency of members and associates in meeting quality requirements for European and International calibration and measurement standards
