

EMPIR – Call 2016 Orientation

Duncan Jarvis
Emrp-pm@euramet.org

The EMPIR Initiative is co-funded by the European Union's Horizon 2020 research and innovation programme and the EMPIR Participating States.

Orientation

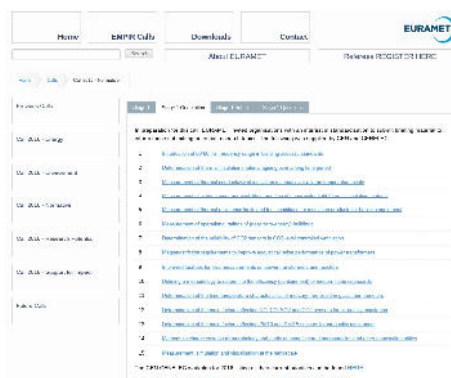

- The call website (msu.euramet.org) has a number of documents indicating the priorities of key stakeholders. The metrology community is asked to consider these when preparing their PRT submissions.

NRM

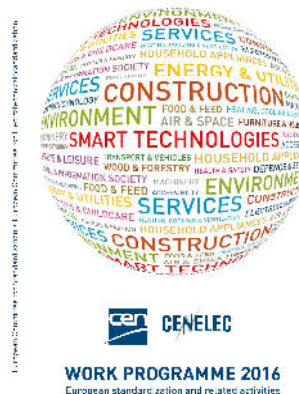

- CEN and CENELEC have identified 15 priority standardisation needs including building acoustics, thermal insulation, power transformers, fume cupboards, thermometers, air quality and nano technology.
- ETSI have identified one priority.

EMPIR 2016 Orientation, Madrid, February 2016

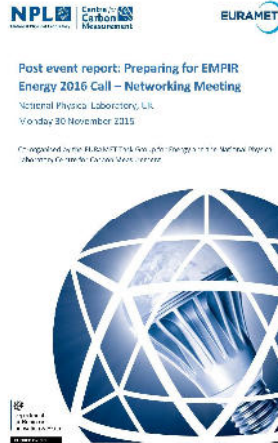

Other ESO priorities

EMPIR 2016 Orientación: Madrid, Febrero, 2016

ENG

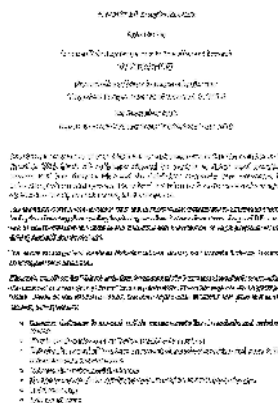

- Report of a workshop held last year identifying 10 key challenges in 6 areas.

EMPIR 2016 Organisation Meeting February 2016

ENV

- Report of a workshop held last year identifying 12 priorities.

EMPIR 2016 Organisation Meeting February 2016

Strategic Research Agenda

- Identifies EURAMET's priorities in each technical area.
- Also outlines the Strategy behind the Research Potential call.
