

EUROMET PROJECT
~~PROGRESS~~/FINAL REPORT*)

1. RefNo.: 255	2. Field: Length and Dimensional Metrology
3. Type of collaboration: Consultation of facilities	
4. Partners: PTB, NPL, SP, VSL, DFM, TRCF, LNE, CEM, IMGC, SFOM	
5. Subject: Workshop on calibrating and testing laserinterferometers March 11/12, 1992, Berlin	
6. Progress: <p style="margin-left: 40px;">The workshop was held in Berlin on March 11 and 12, 1992.</p> <p style="margin-left: 40px;">It covered traceability, calibration of laserinterferometer systems and/or components of laserinterferometers, and their testing and verification. A large part of discussion occupied the mutual demands which manufacturers of laserinterferometer systems and National Metrology Institutes (NMI) make on each other.</p> <p style="margin-left: 40px;">All of the presented material and a summary of the discussion is published in a PTB report (PTB-Bericht F 15, 1992)</p>	
7 Coordinator's name: Horst Kunzmann Address: PTB- Braunschweig, Bundesallee 100 D-3300 Braunschweig Telephone: xx49-531-592-5010	8. Completion date: 23/11/92
9. Coordinator's signature: <i>A. Kunzmann</i>	10. Date: 23/11/92
