

**Training and Workshop: Writing EMPIR JRP<sup>1</sup> proposals for maximal impact**  
**PTB Berlin, Germany, 5/6 June 2018**

Abbestrasse 2-12, 10587 Berlin, Siemens-Bau, R. 310

(draft agenda 2018-03-15)

**5 June**

|       |                                                                                                                                                                                     |                  |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|
| 8.45  | Registration                                                                                                                                                                        |                  |
| 09.00 | Welcome and opening                                                                                                                                                                 |                  |
|       | Introduction to training                                                                                                                                                            | Tanasko Tasić    |
| 09.15 | Introduction to EMPIR, general rules (MSU)                                                                                                                                          | Dagmar Auerbach  |
|       | Taking part in EMPIR Calls (how, when, information sources, relevant documents)                                                                                                     | Tanasko Tasić    |
|       | EURAMET expectations for a good JRP proposal                                                                                                                                        | Dagmar Auerbach  |
|       | Main elements of a JRP proposal                                                                                                                                                     | Dagmar Auerbach  |
| 10:30 | Coffee break                                                                                                                                                                        |                  |
| 11:00 | Stakeholders' and referees' view                                                                                                                                                    | Thekla Kiffmeyer |
|       | Designing the EMPIR project 14RPT03-ENVCRM "Matrix reference materials for environmental analysis"                                                                                  | Alper İşleyen    |
|       | Designing the projects on<br>Metrology for mobile detection of ionising radiation following a nuclear or radiological incident (EMRP ENV57 MetroERM and EMPIR 16ENV04 Preparedness) | Stefan Neumaier  |
| 13:00 | Lunch                                                                                                                                                                               |                  |
| 14:00 | JRP drafting exercise                                                                                                                                                               |                  |
|       | Strategic aspects - Need for the project                                                                                                                                            |                  |
|       | Objectives                                                                                                                                                                          |                  |
|       | Stakeholders                                                                                                                                                                        |                  |
|       | Impact                                                                                                                                                                              |                  |
|       | Smart specialisation aspect                                                                                                                                                         |                  |

<sup>1</sup> Joint research projects

Deliverables  
Work packages

15:30 Coffee break  
16:00 JRP drafting exercise - continuation  
17:00 Conclusion of the day 1

## 6 June

09.00 JRP drafting exercise – presentations by participants and discussion  
10:30 Coffee break  
11:00 JRP drafting exercise – presentations by participants and discussion  
12.30 Conclusions  
13:00 Lunch  
14:00 Additional time for work/discussions on JRP drafts, if needed

## Lecturers:

Dr. Dagmar Auerbach, EURAMET Programme Manager  
Dr. Alper İşleyen, TUBITAK UME, Chemistry Group- Head of Reference Materials Laboratory  
Dr. Thekla Kiffmeyer, PTB, Research Projects Support  
Dr. Stefan Neumaier, PTB, Working Group 6.10 Ionising Radiation in the Environment  
Dr. Tanasko Tasić, EURAMET Capacity Building Officer
