Open Consultation on Metrology for Smart Electricity Grids

Stakeholder Online Session No. 1
DC grids and HV testing

16th November 2021; 10:00 – 12:00 CET

Introduction: Due to the transition to decentralised grid systems, DC grids play an increasingly important role. The keynote will address technical needs related to DC systems (generation, storage and conversion) and discuss DC measurement challenges.

Time (CET)	Item	Speaker
10:00	Welcome	Gert Rietveld, EMN SEG Chair
10:05	Measurement needs identified via a recent stakeholder survey	Marc-Olivier André, EMN SEG
10.15	Keynote: DC grid challenges	Dr Mathieu Caujolle, Électricité de France (EDF)
10.35	Forum discussion on metrology needs for DC grids, HV testing and smart grid measurement challenges	ALL
11.45	Wrap up	Gert Rietveld, EMN SEG Chair
12:00	End of the meeting	

EURAMET e.V., Bundesallee 100, 38116 Braunschweig, Germany
