

TC Highlights

Robert Gunn
TC-IM Chair

- Since the last General Assembly the TC Chairs have held 2 meetings and have held 2 joint meetings with EMN Chairs.

- Discussion topics
 - CIPM MRA & KCDB
 - Research programme
 - Future planning - Roadmaps and Strategic Research Agenda
 - Digital transformation
 - Communications

- Landscape is becoming more complex.
- TCs not working alone in their subject area but engaging with other TCs, through EMNs and in research projects to provide services and satisfy stakeholders
- Requires a lot of effort and good communications
- Delivering greater benefits from metrology but also generating greater demand
- Demonstrates the need to work together across the EURAMET structures
