

EURAMET TC-FLOW Annual Meeting

23rd – 25th April 2024

Hosted by VTT MIKES Kajaani – VTT Technical Research Centre of Finland

Info sheet

Meeting point:

Hotel Kajanus, Koskikatu 3, 87200 Kajaani, Finland. <https://www.hotelkajanus.fi/en/>

How to get there:

<https://visitkajaani.fi/en/information-about-the-region/location-and-arrival/>

By flight: There is only one flight per day from Helsinki to Kajaani. From airport we arrange a bus transportation to city centre and to Hotel Kajanus. Other options are by taxi, which is around 25€. Public transportation is limited.

By train: It is possible to arrive to Kajaani by train from Helsinki or other cities (Oulu, Kuopio). Train station is ca. 1,5 km from the Hotel Kajanus.

Public transport:

Public transport is limited in Kajaani. Good news is that the city and the centre is relatively small and several locations are within walking distance.

Weather:

Average air temperature in April is ca. 5°C. Nights are cold and often below zero degree. There should be some snow still, but roads and sideways are clear to go. Hopefully also sunny weather.
