

Stakeholder- Workshop

Who should attend?

The MetHyInfra stakeholder workshop brings together experts from the gas industry, meter/sensor manufacturers, associations and mobility industries representatives, energy suppliers, business analytics, metrology, academia, standardisation, and others.

Why should you attend?

- Learn about the latest developments in providing SI-traceability for very high-pressure and liquefied hydrogen gas flows
- Learn about upcoming projects in the field of hydrogen
- Get involved into future cooperations and collaborations.

- CFD workshop
 - Take your chance and stay for one more day and join the [CFD workshop](#).

Save the date

Wednesday, **14 June 2023** - Afternoon session

Hybrid meeting @ RISE, the Swedish National Metrology Institute, located in Borås

Registration: <https://www.ri.se/en/news/calendar/methyinfra-workshop>

The agenda will be available from 29 May 2023 – please visit our [website](#)

Topics:

1. Networking
2. results of the project
3. New projects
4. Future cooperation
5. Open discussion

+ the Computational Fluid Dynamics (CFD) workshop on 15 June ([link](#))

This project (20IND11 MetHyInfra) has received funding from the EMPIR programme co-financed by the Participating States and from the European Union's Horizon 2020 research and innovation programme.
