From Oslo Airport Gardermoen, it is easiest and fastest to travel by train. They are usually regular. Travelling time from Gardermoen to Oslo is about 30 minutes for regional trains and the Airport Express Train. It is also possible to go by local trains, busses or taxis, but they take more time if your destination is Lillestrøm or Oslo.

Regional trains and busses

The ticket system and prices are common for the regional trains, local trains, local busses and trams. The prices are based on zones, and you can switch between trains, trams and busses within the same zone.

Here is more information: <https://ruter.no/en/>

Airpot Express Train (Flytoget)

The prices are higher than regional trains or busses. The ticket is only valuable at “Flytoget”. You cannot combine this ticket with busses, trams or trains.

The payment system is Norwegian Kroner. (We don't use Euro).
It is most common to use plastic cards (credit cards) or apps.
